Comment: Sirs, Absolutely no reason to change the VE monitoring number from 2 to 3. No reason for a remote monitoring system. The integrity provided currently is needed to keep the standards at an acceptable level. Government requires many different types of tests to receive licenses in different fields from aviation to law. All require a strictor monitoring system than what is being proposed here or what we have currently in Amatuer Radio regulations. Do not destroy the integrity of the current Amatuer Radio testing system.

Sirs, Absolutely no reason to change the VE monitoring number from 2 to 3. No reason for a remote monitoring system. The integrity provided currently is needed to keep the standards at an acceptable level. Government requires many different types of tests to receive licenses in different fields from aviation to law. All require a strictor monitoring system than what is being proposed here or what we
